

FTP replication - Backup your website!

ZipDeploy gets bidirectional ! With its new feature, Backup and Download, you may not only unzip on your website, but now also compress on the website and download your site as a Zip archive!

The great benefit being the site replication ability of ZipDeploy. Copy existing installations from one site to another with just a few clicks using ZipDeploy!

In addition, this feature is fully functional in the Trial Version.

Check it out now! [Get ZipDeploy 2.1](#)
