

ZipDeploy 2.2

Dear ZipDeploy user, we proudly announce the release of the stable 2.2 version introducing:

- a new feature: Batch Automation: You may generate ZipDeploy launchers to perform a job automatically, then schedule these jobs using the Task Scheduler. You don't have to be an expert to run ZipDeploy from the CLI, automation is one click away!
- more servers: ZipDeploy supports almost all the servers to date, Low Acceleration is anyway better than no acceleration....
- Zip/Unzip progress and Timer: You will see a progressbar of the advancement, to be able to estimate how much time will the operation involve. You are invited to download the latest release from :
<http://zipdeploy.com/ZipDeploy/download/> as older ZipDeploy versions will stop working.
